Focusing on how computers can make paralegals and legal professionals more productive on the job, this updated Seventh Edition of the #1 book on the market offers comprehensive treatment of computer concepts, including coverage of both basic software programs like Word, Excel, and PowerPoint, to more advanced applications using AbacusLaw, CaseMap, Clio, DiscoverFY, HotDocs, Tabs3, TimeMap, and TrialDirector. Real-life examples, pertinent tutorials, ethical considerations, and up-to-date coverage of the most popular software used in all types of legal organizations help readers develop key knowledge and skills. Each topic is presented in a clear and organized manner and includes examples of how the software is actually used on the job. The detailed Hands-on Exercises include Basic, Intermediate, and Advanced assignments to allow for a variety of skill levels. These extensive exercises allow readers to apply their knowledge and practice using computers to complete realistic legal work. This edition reflects the ever-changing rules and decisions affecting the legal process (gathering evidence, managing files, filing with courts, working on electronic copyright issues, presenting exhibits, billing, etc.) and covers the most up-to-date technology available to help paralegals comply to new rules and better handle complex records and files.
