Technological Developments in Networking, Education and Automation

Technological Developments in Networking, Education and Automation

Technological Developments in Networking, Education and Automation includes a set of rigorously reviewed world-class manuscripts addressing and detailing state-of-the-art research projects in the following areas:

Computer Networks: Access Technologies, Medium Access Control, Network architectures and Equipment, Optical Networks and Switching, Telecommunication Technology, and Ultra Wideband Communications.

Engineering Education and Online Learning: including development of courses and systems for engineering, technical and liberal studies programs; online laboratories; intelligent testing using fuzzy logic; taxonomy of e-courses; and evaluation of online courses.

Pedagogy: including benchmarking; group-learning; active learning; teaching of multiple subjects together; ontology; and knowledge management.

Instruction Technology: including internet textbooks; virtual reality labs, instructional design, virtual models, pedagogy-oriented markup languages; graphic design possibilities; open source classroom management software; automatic email response systems; tablet-pcs; personalization using web mining technology; intelligent digital chalkboards; virtual room concepts for cooperative scientific work; and network technologies, management, and architecture.

Coding and Modulation: Modeling and Simulation, OFDM technology, Space-time Coding, Spread Spectrum and CDMA Systems.

Wireless technologies: Bluetooth, Cellular Wireless Networks, Cordless Systems and Wireless Local Loop, HIPERLAN, IEEE 802.11, Mobile Network Layer, Mobile Transport Layer, and Spread Spectrum.

Network Security and applications: Authentication Applications, Block Ciphers Design Principles, Block Ciphers Modes of Operation, Electronic Mail Security, Encryption & Message Confidentiality, Firewalls, IP Security, Key Cryptography & Message Authentication, and Web Security.

Robotics, Control Systems and Automation: Distributed Control Systems, Automation, Expert Systems, Robotics, Factory Automation, Intelligent Control Systems, Man Machine Interaction, Manufacturing Information System, Motion Control, and Process Automation.

Vision Systems: for human action sensing, face recognition, and image processing algorithms for smoothing of high speed motion.

Electronics and Power Systems: Actuators, Electro-Mechanical Systems, High Frequency Converters, Industrial Electronics, Motors and Drives, Power Converters, Power Devices and Components, and Power Electronics.

From reader reviews:

Angel Gardner:

Have you spare time for a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a go walking, shopping, or went to often the Mall. How about open or read a book titled Technological Developments in Networking, Education and Automation? Maybe it is to become best activity for you. You already know beside you can spend your time using your favorite's book, you can smarter than before. Do you agree with it is opinion or you have different opinion?

Jennifer McNab:

Book will be written, printed, or created for everything. You can understand everything you want by a publication. Book has a different type. As it is known to us that book is important matter to bring us around the world. Close to that you can your reading proficiency was fluently. A book Technological Developments in Networking, Education and Automation will make you to be smarter. You can feel far more confidence if you can know about anything. But some of you think which open or reading any book make you bored. It is far from make you fun. Why they are often thought like that? Have you in search of best book or suitable book with you?

Maria Antoine:

Do you have something that that suits you such as book? The guide lovers usually prefer to opt for book like comic, limited story and the biggest some may be novel. Now, why not seeking Technological Developments in Networking, Education and Automation that give your entertainment preference will be satisfied by means of reading this book. Reading behavior all over the world can be said as the means for people to know world better then how they react in the direction of the world. It can't be said constantly that reading practice only for the geeky individual but for all of you who wants to be success person. So , for all you who want to start examining as your good habit, you are able to pick Technological Developments in Networking, Education and Automation become your starter.

Anthony Martin:

Reading a book to get new life style in this calendar year; every people loves to examine a book. When you read a book you can get a lot of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information on it. The information that you will get depend on what forms of book that you have read. In order to get information about your review, you can read education books, but if you want to entertain yourself read a fiction books, this sort of us novel, comics, and also soon. The Technological Developments in Networking, Education and Automation offer you a new experience in reading through a book.
