Remember the Union of Soviet Socialist Republics? When there was still a Prussia? Before Pakistan existed? Before Alaska and Hawaii were states? When Southeast Asia still had Siam and French Indochina? This antique atlas will bring back those days and makes a great historical document. The atlas features all of the (then) 48 states, plus maps of the world. This book has definitely been used - the binding is intact but visibly worn, and there are some pencil markings on several pages. There are also ink markings on the inside cover, with references to an Indiana sports team ("Bulldogs") on the flyleaf. For its age and historical value, though, this atlas is a great item for historians as well as nostalgia buffs. It includes population statistics, types of governments, square miles, and much interesting data - even the ancient Silk Road routes. There are many hours of education and entertainment in store with this atlas.
