International Business and Its Environment delivers comprehensive coverage of the legal, cultural, political, economic, and ethical issues global business managers face. Focusing on the trade, licensing and investment life-cycle that many domestic (new-to-international) and multinational organizations experience, the authors present the market-entry strategies, increasing levels of penetration into foreign markets, and set of risks that firms encounter during each life-cycle phase. From protecting and licensing intellectual property to learning the special challenges of doing business in developing countries and non-market-economies, the 8th Edition helps you understand the most important and emerging issues in global business law through its cutting-edge cases and real-world examples, relevant case questions, managerial problems, and ethics activities.
