Testing Statistical Hypotheses (Springer Texts in Statistics)

Erich L. Lehmann, Joseph P. Romano

Testing Statistical Hypotheses (Springer Texts in Statistics) Erich L. Lehmann, Joseph P. Romano

The third edition of Testing Statistical Hypotheses updates and expands upon the classic graduate text, emphasizing optimality theory for hypothesis testing and confidence sets. The principal additions include a rigorous treatment of large sample optimality, together with the requisite tools. In addition, an introduction to the theory of resampling methods such as the bootstrap is developed. The sections on multiple testing and goodness of fit testing are expanded. The text is suitable for Ph.D. students in statistics and includes over 300 new problems out of a total of more than 760.

From reader reviews:

Kerry Diaz:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each e-book has different aim or perhaps goal; it means that reserve has different type. Some people experience enjoy to spend their time for you to read a book. They can be reading whatever they have because their hobby is reading a book. How about the person who don't like reading a book? Sometime, man feel need book if they found difficult problem or perhaps exercise. Well, probably you'll have this Testing Statistical Hypotheses (Springer Texts in Statistics).

Stacy Vincent:

Information is provisions for those to get better life, information currently can get by anyone with everywhere. The information can be a information or any news even a problem. What people must be consider whenever those information which is inside former life are challenging to be find than now's taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you receive the unstable resource then you understand it as your main information it will have huge disadvantage for you. All of those possibilities will not happen with you if you take Testing Statistical Hypotheses (Springer Texts in Statistics) as your daily resource information.

Caroline Hagemann:

Are you kind of hectic person, only have 10 or maybe 15 minute in your day to upgrading your mind skill or thinking skill also analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short period of time to read it because all this time you only find book that need more time to be examine. Testing Statistical Hypotheses (Springer Texts in Statistics) can be your answer since it can be read by a person who have those short time problems.

Nichol Colby:

Is it you who having spare time subsequently spend it whole day by watching television programs or just lying down on the bed? Do you need something totally new? This Testing Statistical Hypotheses (Springer Texts in Statistics) can be the respond to, oh how comes? It's a book you know. You are thus out of date, spending your free time by reading in this brand-new era is common not a nerd activity. So what these ebooks have than the others?
