Colonial Modernities: Building, Dwelling and Architecture in British India and Ceylon (Architext)

Colonial Modernities: Building, Dwelling and Architecture in British India and Ceylon (Architext)

A carefully crafted selection of essays from international experts, this book explores the effect of colonial architecture and space on the societies involved – both the colonizer and the colonized.

Focusing on British India and Ceylon, the essays explore the discursive tensions between the various different scales and dimensions of such 'empire-building' practices and constructions. Providing a thorough exploration of these tensions, *Colonial Modernities* challenges the traditional literature on the architecture and infrastructure of the former European empires, not least that of the British Indian 'Raj'.

Illustrated with seventy-five halftone images, it is a fascinating and thoroughly grounded exposition of the societal impact of colonial architecture and engineering.
