FACTS: Modelling and Simulation in Power Networks

Enrique Acha, Claudio R. Fuerte-Esquivel, Hugo Ambriz-Pérez, César Angeles-Camacho

FACTS: Modelling and Simulation in Power Networks Enrique Acha, Claudio R. Fuerte-Esquivel, Hugo Ambriz-Pérez, César Angeles-Camacho

The first book to provide comprehensive coverage of FACTS power systems modeling and simulation.

* Detailed coverage of the development of FACTS controllers and guidance on the selection of appropriate equipment

* Computer modelling examples of the FACTS controllers for steady-state and transient stability systems

* Numerous case studies and practical examples

From reader reviews:

Donna Beckman:

This FACTS: Modelling and Simulation in Power Networks usually are reliable for you who want to be a successful person, why. The key reason why of this FACTS: Modelling and Simulation in Power Networks can be one of the great books you must have is giving you more than just simple studying food but feed a person with information that maybe will shock your previous knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions in e-book and printed types. Beside that this FACTS: Modelling and Simulation in Power Networks forcing you to have an enormous of experience for example rich vocabulary, giving you test of critical thinking that we realize it useful in your day action. So , let's have it and luxuriate in reading.

Dale Winsett:

You could spend your free time you just read this book this guide. This FACTS: Modelling and Simulation in Power Networks is simple to develop you can read it in the park your car, in the beach, train along with soon. If you did not get much space to bring the printed book, you can buy often the e-book. It is make you quicker to read it. You can save typically the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Douglas Brownlee:

As we know that book is important thing to add our understanding for everything. By a e-book we can know everything you want. A book is a group of written, printed, illustrated or blank sheet. Every year seemed to be exactly added. This publication FACTS: Modelling and Simulation in Power Networks was filled with regards to science. Spend your spare time to add your knowledge about your science competence. Some people has several feel when they reading the book. If you know how big selling point of a book, you can sense enjoy to read a reserve. In the modern era like today, many ways to get book which you wanted.

Jennifer Powell:

Many people said that they feel weary when they reading a guide. They are directly felt that when they get a half elements of the book. You can choose the book FACTS: Modelling and Simulation in Power Networks to make your personal reading is interesting. Your current skill of reading proficiency is developing when you including reading. Try to choose straightforward book to make you enjoy to see it and mingle the sensation about book and reading especially. It is to be very first opinion for you to like to open a book and go through it. Beside that the reserve FACTS: Modelling and Simulation in Power Networks can to be your brand-new friend when you're sense alone and confuse with what must you're doing of their time.
