Subject: How to stimulate massive weight loss with herbal remedies (phytotherapy) to feel and look amazing.

Dear Friend,

Have you heard all the hype about how certain natural, herbal remedies are extremely effective for weight loss? Do you believe the hype? If not, you should! I am just about to reveal to you why these natural remedies really do work, and to help you create a new, healthier version of yourself.

Although phytotherapy herbs are not the ultimate weight loss solution (a healthy diet and exercise should be), herbal remedies have a range of healing properties for the body and mind and should be a part of everyone's daily lifestyle whether you want to lose weight or not.

Even if you have the best diet and fitness plan around, some additional strategies should be applied to help you prevent emotional eating, detoxify your body, achieve a healthy pH balance (herbal remedies and the alkaline diet go hand in hand, and being an alkaline diet follower I know what I am talking about), reduce cellulite and stretch marks, increase your energy levels (so that you can carry on your fitness goals), reduce muscle pain and tension after working out, ease stress, fight insomnia (if you don't get enough sleep or don't sleep well, you are more prone to uncontrolled sugar cravings) and add to your overall wellbeing. It all starts from creating a healthy, balanced and conscious **Iholistic wellness lifestyle**.

In other words, you need to build up a strong foundation and a weight loss plan, and the power of herbal remedies, as a natural, holistic and complimentary therapy, should not be underestimated.
