## **What's Love All About** John Stewart Rushton

Love is the essence of our whole life and existence. It is what has allowed us "man" to excell over and above other species, and why some societies have done well whereas many other areas of life with eveil religiously anti-love concepts fall sadly behind and become poisoned failures by their own hand.

Take love away from mankind and people are no better than drones or robots. Within our soiciety there are those that find love easily, those that struggle and those that apportion what they deem as love out to a select few as if it is precious beyond cost.

The truth is that the more you love life, others, etc, the more it gets replenished and the happier your life becomes. Without love you are nothing, where love exists so does peace, where there is a deficit of love evil takes a hold and this is all too evident today.

Love can exist on many levels and platforms, but as long as it exists then there is a happiness trail in the making, an understanding of life and humanity and all that's good.

An interesting audio download for those that want to understand more about their feelings with love as the subject.
