The ISA Handbook of Diverse Sociological Traditions (SAGE Studies in International Sociology)

This latest edition to the ISA handbook series actively engages with the many traditions of sociology in the world. Twenty-nine chapters from prominent international contributors discuss, challenge and re-conceptualize the global discipline of sociology; evaluating the diversities within and between sociological traditions of many regions and nation-states. They assess all aspects of the discipline: ideas and theories; scholars and scholarship; practices and traditions; ruptures and continuities through an international perspective. Its goal is to become a text for debating the contours of international sociology.
