To acquaint the users of the new edition with the original spirit and methodology of compiling the *Biographical Dictionary*, we have left intact the original Introduction and the Guide to Abbreviations. Much else has been changed, added, or cut out in the remaining parts of the volume: the list of biographies, the list of pseudonyms, and the text of individual biographies themselves. To express in figures the scope of change: 35 completely new biographies have been written, escalating the total number of biographies from 718 to 753; whereas the original edition identified 358 pseudonyms, that number is now 435; and, in 229 biographies that appeared in the first edition, several corrective or additional facts have been supplied.
