Model Checking Software

Model Checking Software

Since 1995, when the SPIN workshop series was instigated, SPIN workshops have been held on an annual basis in Montr´eal (1995), New Brunswick (1996), Enschede (1997), Paris (1998), Trento (1999), Toulouse (1999), Stanford (2000), Toronto (2001), Grenoble (2002) and Portland (2003). All but the first SPIN workshop were organized as satellite events of larger conferences, in particular of CAV (1996), TACAS (1997), FORTE/PSTV (1998), FLOC (1999), the World Congress on Formal Methods (1999), FMOODS (2000), ICSE (2001, 2003) and ETAPS (2002). This year again, SPIN was held as a satellite event of ETAPS 2004. The co-location of SPIN workshops with conferences has proven to be very successful and has helped to disseminate SPIN model checking technology to wider audiences. Since 1999, the proceedings of the SPIN workshops have appeared in Springer-Verlag's Lecture Notes in Computer Science series. The history of successful SPIN workshops is evidence for the maturing of model checking technology, not only in the hardware domain, but increasingly also in the software area. While in earlier years algorithms and tool development around the SPIN model checker were the focus of this workshop series, for several years now the scope has been widened to include more general approaches to software model checking techniques and tools as well as applications. The SPIN workshop has become a forum for all practitioners and researchers interested in model checking based techniques for the validation and analysis of communication protocols and software systems.

From reader reviews:

Frank Cockerham:

Book is written, printed, or illustrated for everything. You can learn everything you want by a guide. Book has a different type. To be sure that book is important factor to bring us around the world. Close to that you can your reading ability was fluently. A guide Model Checking Software will make you to always be smarter. You can feel considerably more confidence if you can know about every thing. But some of you think which open or reading a book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you trying to find best book or ideal book with you?

John Sledge:

Reading can called imagination hangout, why? Because when you are reading a book particularly book entitled Model Checking Software your head will drift away trough every dimension, wandering in every single aspect that maybe unknown for but surely will end up your mind friends. Imaging every word written in a book then become one type conclusion and explanation that will maybe you never get prior to. The Model Checking Software giving you another experience more than blown away the mind but also giving you useful facts for your better life on this era. So now let us teach you the relaxing pattern this is your body and mind are going to be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

Mildred Olsen:

Your reading sixth sense will not betray anyone, why because this Model Checking Software reserve written by well-known writer who really knows well how to make book that can be understand by anyone who read the book. Written in good manner for you, leaking every ideas and producing skill only for eliminate your personal hunger then you still hesitation Model Checking Software as good book not just by the cover but also by the content. This is one reserve that can break don't judge book by its handle, so do you still needing another sixth sense to pick this specific!? Oh come on your studying sixth sense already told you so why you have to listening to an additional sixth sense.

Ryan Moore:

This Model Checking Software is great publication for you because the content which can be full of information for you who also always deal with world and still have to make decision every minute. That book reveal it details accurately using great organize word or we can point out no rambling sentences included. So if you are read the idea hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but difficult core information with wonderful delivering sentences. Having Model Checking Software in your hand like having the world in your arm, facts in it is not ridiculous just one. We can say that no guide that offer you world in ten or fifteen tiny right but this publication already do that. So , it is good reading book. Hi Mr. and Mrs. active do you still doubt which?
