Little Hidden Clive Sheldon

The story of two men hundreds of years apart who are destined to meet, with life changing consequences for one of them and terrible tragedy for the other. Philip is a frustrated bachelor, living at home with his cantankerous father and working in a thankless voluntary job running a soup kitchen for the homeless. Wanting nothing more than a sense of purpose and stability, he faces his world being turned upside down by an unexpected decision by his father. David lives in a tiny village hidden from view for centuries. He is drawn out of his sheltered environment, protected by a trick of perception, into an unknown modern world. His goal is to meet with a man he has never seen, other than in a dream. The consequences of his success or failure could not be more profoundly important for his little community. When the two finally meets Philip is faced with a choice: to achieve everything he's wished for in his life, but turn his back forever on his father and all personal responsibility. For David the future is even more dramatic, where success means making the ultimate sacrifice. On their journeys they are helped by a cast of diverse characters, and also manage to explore the unexpected reality underlying a few urban myths.
