Greta Nole loved the old hotel more than any other place on earth. If the new owners close it down, she'd be out of a job and her beloved hotel would be gone forever. She'd do whatever she had to do to get the hotel in tiptop shape before the new owner arrived after Christmas. But first she had to survive Stormzilla, the nastiest snowstorm to hit southern Indiana in years.

Owen Levi III had no clue why his father would buy such a relic as the Jubilee--and then send Owen out there to check it out so close to Christmas. Had his dad finally lost his mind? The hotel was nothing more than an albatross around Levi Industries' neck and the only recommendation Owen could make was to tear it down! Quick. Owen's staring out the window, mentally going over what would need to be done to even get the hotel habitable when he sees an idiot woman walking through the storm. When she trips and hits her head Owen's outside to rescue her faster than he can think.

Greta and Owen have tangled over hotels before, and neither would ever admit defeat!
